

Re-Act 4™

powered by

Re-Act 4™ is a fine, white colored, amorphous, glass powder made from 100% recycled glass with excellent pozzolanic properties and a similar water demand to ordinary portland cement. Through a patented recycled glass sorting and cleaning process along with our state-of-the-art manufacturing, we have created an environmentally safe and sustainable secondary cementitious material suitable for many applications as listed below. This product conforms with ASTM C1866/ CSA A3000-21.

Applications: Ready Mix Concrete (architectural, design and white cement); Pre-cast; HPC & UHPC; Piles and structural, desirable in decorative concrete requiring white siliceous materials.

Packing: Bulk super-sack, 50 lb. bags; other packaging options are available on request.

Storage: Dry storage. Avoid contact with moisture. Maintain seal.

Safety: **Re-Act 4™** is amorphous. Material Safety Data Sheet available upon request.

Environmental: Lower your Global Warming Potential (1 ton cement replaced = 1 ton CO₂ removed.) Complies with ISO 14001:2004, OHSAS 18001:2007, and R2:2013. EPD forthcoming.
