

## Re-Act™ 4<sub>SR</sub> - Recycled Glass Pozzolan

**Re-Act™ 4<sub>SR</sub>** is a fine, white colored, amorphous, glass powder made from 100% recycled glass with excellent pozzolanic properties designed specifically to replace slag with a similar water demand to ordinary Portland cement. Through a patented recycled glass sorting and cleaning process along with our state-of-the-art manufacturing, we have created an environmentally safe and sustainable supplementary cementitious material suitable for many applications as listed below. This product conforms with ASTM C1866/ CSA A3000-21.

Applications: Concrete (as a slag and fly-ash replacement); pre-cast; UHPC.

Packing: Bulk super-sack, 50 lb. bags; other packaging options are available on request.

Storage: Dry storage. Avoid contact with moisture. Maintain seal.

Safety: **Re-Act™ 4<sub>SR</sub>** is amorphous. Material Safety Data Sheet available on request.

Environmental: Lower your Global Warming Potential (1 ton Portland cement replaced = 1 ton CO<sub>2</sub> removed.) Complies with ISO 14001:2004, OHSAS 18001:2007, and R2:2013. EDP forthcoming.
